Dear Peter,

I am enclosing a copy of my reply to Grondine's letter and draft of 8 August. As stated, I think it is now high time to stop quibbling or chasing chimeras and get to work. I hope you feel that way too. I am about at the end of my tether. I have attempted to do the best I can to accommodate the legitimate interests of all concerned in this four-ring intercontinental circus. I think all concerned have shown a great deal of patience and flexibility. Now we should fish or cut bait. Ride herd on Chris and get something back to Kawasaki pronto on the LATSEC-WTC-IONA problem.

Hope you and Dale have a productive session and wish I could be there. I am excited at the prospect that work will soon begin in earnest and will follow your progress with great interest.

Sincerely,
